

TRICO® Shield™ HYBRID BLADE

TRICO®

TRICO Shield™ Hybrid replacement blades make it easy to restore your vehicle to original factory look and quality. Premium strength polymer shell safe guards the 100% natural rubber wiping element for protection from UV attack and environmental weathering.

Durable spring strength provides optimum beam blade performance for the finest clear screen, in all conditions. Hook arm connection suits the majority of original vehicle hybrid arm applications.

SPECIFICATIONS

- High-strength polymer shell safeguards blade and provides optimum contact pressure
- Superior performance all weather windshield wiper
- 100% natural rubber fully bonded non-replacement wiper element
- Robust superstructure
