

TRICO® Tech™

TRICO®

TRICO Tech™ is the premium flexible beam blade solution, offering exceptional performance, durability & adaptability through the cleverly designed SWIFT™ easy connection technology. All TRICO Tech™ blades feature a UV stabilised, 100% natural rubber element that provides quiet operation and superior wipe quality.

TRICO Tech™ is designed with SWIFT™ EASY Connection Technology that provides a unique combination of simple part selection and ease of installation. The range consists of just 12 part numbers – so finding the right blade for any suitable vehicle is a breeze. Each TRICO Tech™ blade is supplied with a range of multi-fit adaptors, enabling fast and easy installation on hook, pinch tab, push button and side pin wiper arm mounts.

The sleek euro design of the TRICO TECH beam blade is engineered to offer outstanding performance and aerodynamics while maintaining a slim and unobtrusive appearance on your windscreen. The symmetrical aerofoil, and perfectly centred mounting system allow TRICO TECH to also be fitted to vehicles with opposing wiper system, further increasing the versatility and range coverage of this exceptional premium Beam Blade.
