

TRICO®

PREMIUM 10mm REFILLS

TRICO® 10mm PREMIUM hybrid wiper blade refills are designed exclusively as an **OE wiper refill replacement** for late model Japanese vehicles fitted with refillable “mid lock” Hybrid Blades.

Made from the highest quality 100% natural rubber treated with UV stabilisers. TRICO® 10mm PREMIUM refills provide long service life and outstanding performance resulting in smooth operation. Quiet action, low drag, minimising those irritating wiper noises.

Part No	Description	Barcode

100% natural
compounded
rubber element for
great performance

*** IMPORTANT ***

10mm Hybrid blade lengths are **specific to individual vehicles** in order to align with “mid lock” refill system. Note: Refills **cannot be cut to suit** / Original rails need to be retained for fitment.
